

Christian Teachings

What will you be learning about?

During this unit you will be studying the key teachings of Christianity, with a focus on the beliefs about the nature of God, creation stories and their significance to Christians and the problem of evil and suffering.

You will also study the relevant sources of information, wisdom and authority that Christians rely on when making their judgements about teachings.

During this unit we will develop the key skills of evaluation and analysis and use the information studied to make judgements on Christian beliefs.

We will develop our learning by studying the following each week:
