LODE HEATH SCHOOL

# AI WORKSHOP AT SOLIHULL SCHOOL

**Year 9 students attend a workshop on Artificial Intelligence and explore its future impact on the world!**

This week a group of Year 9 students had the amazing opportunity to visit Solihull School to attend a workshop led by AI expert Dan Fitzpatrick. They got to explore what AI was all about and how to use it responsibly as well as having the opportunity to engage with experimenting with AI tools first hand.

Advance Your Enterprise

This event gave our students a chance to stay informed about cutting edge technology and prepare for a future where AI will play an increasingly important role.

We look forward to seeing how the use of AI will develop both in schools and globally as students gain a deeper understanding about how to use it effectively in their academic and personal lives.

**A huge thank you to Solihull School for the invite and for organising such an enjoyable event.**
